EDUCATION

Helwan University Bachelor of Commerce, Management Information System	2019 Cairo, Egypt
---	-----------------------------

EXPERIENCE

Natlix Front End Developer	Oct. 2024 – Present Remote
• Cut page load times by 40% on high-traffic e-learning platforms through strategic bundle splitting, lazy loading, and server-side pagination directly improving user retention and engagement. • Delivered end-to-end front-end development across 30+ projects spanning e-learning and business platforms, from component architecture to API integration. • Led legacy app migration to Next.js 15 with SSR, achieving measurable SEO ranking improvements and reducing 3D asset load times through geometry compression and progressive rendering techniques. • Architected REST API integration and global state management for multi-role systems serving 4 user types, implementing granular role-based access control (RBAC) to enforce data security at scale. • Engineered a reusable TypeScript component library in React and Next.js 15, adopted across multiple platforms and fully compliant with WCAG accessibility standards and cross-browser requirements.	
Web Masters Intern Front-End Developer	Jul. 2024 – Aug. 2024 Remote
• Built responsive product listing and detail pages using React, Next.js, and Tailwind CSS ensuring consistent UI across mobile, tablet, and desktop breakpoints. • Integrated REST APIs to dynamically fetch and render vendor product data across listing and detail views, replacing static content with live data.	

PROJECT

<u>Exclusvio – E-Commerce Platform</u>
• Built high-performance shopping cart using Zustand and TanStack Query with cross-session state persistence and real-time updates. • Developed vendor product management dashboard for creating, editing, and deleting listings with instant UI feedback. • Integrated Stripe to enable secure, end-to-end checkout and payment processing for users. • Implemented automated authentication flow tests using Jest and React Testing Library.
<u>Movie Pick – Movies Platform</u>
• Integrated a movies REST API to fetch and display live data including ratings, descriptions, and trailers. • Implemented search and filtering to help users discover films by genre, rating, and release year. • Built with Next.js App Router for optimized SSR and fast page loads.

SKILLS

• Certifications: Face-To-Face And Phone Communication, YAT Learning Solutions (2025) React Frontend Web Developer, Digital Egypt Pioneers Initiative (2025), Certificate of Achievement (Best Project - React Frontend Track), Digital Egypt Pioneers Initiative (2025) Face-To-Face and Phone Communication, British Council (2024) • Skills: JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Tailwind CSS, Problem-Solving, Team Collaboration, Communication, Continuous Learning • Technologies: React, Next.js, Redux, Zustand, TanStack Query, React Hook Form, Zod, Three.js, React Three Fiber, Ant Design, Jest, React Testing Library, Git, GitHub, REST APIs • Languages: Arabic , English • Interests: E-Learning Platforms, Web Application Performance, Clean Code Practices, UI Accessibility, Tech Community Engagement
