SUMMARY

Front-End Developer with 2 years of experience building scalable, production-grade web applications using React, Next.js, and TypeScript. Contributed to launching an e-learning platform serving 2,000+ active students, owning front-end architecture from scratch including secure authentication, role-based access control, and performance optimized data features such as pagination, sorting, and search. Focused on writing clean, maintainable code and consistently improving load times and user experience across complex, data heavy interfaces.

SKILLS

JavaScript (ES6+), TypeScript, HTML5, CSS3, SCSS, Tailwind CSS

React, Next.js (App Router), Redux, Zustand, TanStack Query, React Hook Form, Zod, Three.js, React Three Fiber, Ant Design

Jest, React Testing Library

Git, GitHub, REST APIs

Problem-Solving, Team Collaboration, Communication, Continuous Learning

EXPERIENCE

JUNIOR FRONT-END DEVELOPER

Natlix

10/2024-PRESENT, Maadi, Egypt

- Contributed to 30+ projects across e-learning platforms and production web apps, owning front-end development from component design to API integration.
- Built and maintained reusable, type-safe UI components using React, Next.js 15, and TypeScript across 30+ client projects, ensuring cross-browser compatibility and accessible markup following WCAG standards
- Integrated REST APIs and managed global state for a role-based system serving 4 distinct user types, enforcing access control on the front end
- Reduced load times by 40% through bundle optimization and lazy loading on high-traffic e-learning platforms by implementing pagination and lazy loading, reducing load times on large datasets
- Refactored a legacy production app to Next.js 15, improving SEO through SSR and cutting 3D asset load times via optimization techniques
- Maintained and debugged live applications across a fast-moving multi-project environment, building strong ownership over production code quality.

INTERN FRONT-END DEVELOPER

Web Masters

07/2024-08/2024, Remote

- Built responsive product listing and detail pages using React, Next.js, and Tailwind CSS, ensuring consistent UI across devices
- Integrated REST APIs to dynamically render vendor product data across listing and detail views.

PROJECT

EXCLUVIO – E-COMMERCE PLATFORM

- Built a high-performance shopping cart with Zustand for instant client-side state and TanStack Query for server sync, including cross-session persistence
- Developed a vendor product management system with real-time UI updates for creating, editing, and deleting listings
- Integrated Stripe for secure, end-to-end checkout and payment processing
- Wrote automated tests with Jest and React Testing Library covering authentication flows.

EDUCATION

BACHELOR OF COMMERCE, ENGLISH SECTION

Helwan University • 07/2019

- Major: Management Information System (MIS).

CERTIFICATIONS

Face-to-face and phone communication

YAT Learning Solutions • 2025

React Frontend Web Developer

Digital Egypt Pioneers Initiative (DEPI) • 2025

- Certificate of Achievement (Best Project – React Frontend Track), Digital Egypt Pioneers Initiative (DEPI).

Face-to-face and phone communication

British Council • 2024

- English.
-
